

### ***Methods of payment and delivery of goods***

Clients can choose among different ways of payment in advance for the goods as follows:

1. Advanced Bank Transfer in favor of WATCHES ON WEB after order confirmation
2. Credit Card: Visa, Mastercard Circuit, Visa Electron, PostaPay, Aura, Paypal Recharge Paypal Account

In any case of advance payment, the order is accepted and the goods will be delivered to the carrier, as described in the following paragraph, only after having verified the positive credit in favor of the trader, which will confirm by e-mail to the consumer, also indicating the Air Waybill number of the shipment (tracking n.) that the courier in charge will use to identify and ship out the package. The delivery of the goods from the trader to the carrier will take place within 5 working days after the order acceptance. In the case of temporary unavailability of the article chosen, the trader gives warning to the client that the product is not readily available and it will be found as soon as possible and delivered to the carrier for shipment. In the case this will not be possible because the product is out of stock, the trader will suggest some alternatives as replacement; if the consumer doesn't accept, the trader will refund the purchase. The carrier will deliver every day except on public holidays, Saturdays and Sundays. Deliveries are made from 09.00 a.m. to 05.00 p.m.
